I-I'm not crying, y-you're crying T-T. the feels.. What the bologna is this?! I don't know why but, the start button doesn't appear after instaling.. Just wow. If your looking for a sweet romance visual novel, look no further cause this is the one. Beautiful music, CGs, and heart felting story. Take your time reading it and it comes to life as a real anime altogether as the VA in this novel makes it even more amazing well worth 2 dollars for your happiness, guarantee satisfaction. Overall rating 11.1/10 prob the best sakuragames novel. Probably one of the best VN i have ever read made me cry a couple of times but omg i loved it!.

lovely game with great graphics, typical plot&relatively short story but fully audio which make it adorable. price is reasonable, would recommend to anyone.. Great game! 10/10 Superb storyline and great art! Really enjoyed the character developments also.. I bought this game as a joke because my friends thought it was super cringe. I ended up completeting it unironically because the story was actually surprisingly interesting and also fox girls are pretty good I guess. Overall I'd give it a 6.5/10 but it actually isn't bad for the price.
